"Thank you to Inette from In-Sculpt Aesthetics for changing my life. I struggled a lot with my feet swelling after my knee replacement. Every day I had to lie with a warm bag on my knees and feet when I came home from work. I was always tired and had trouble moving. Today I have lost over 30kg and gone from a size 24 to a size 14, I have much more energy, much more mobility, my fatty liver is cured, my pre-diabetes is cured, my inflammation has improved and my swelling is gone. I eat about 70% less than usual and this has a big effect on our food bill."
